Open-ear Design

Using the direction tone tech with a unique open-ear design to produce high-quality sound without covering your ears and preventing sound leakage.

Made For Your Ear Healthcare

Traditional TWS that go directly in your ear are a breeding ground for sweat, bacteria and dirt, which can lead to infections. Open-ear headphones can prevent infection happening.

Healthcare

Keep your ear fully transparency, minimizing hearing damage and reducing bacterial growth.

Secure Fit

With ergonomic rear hanging design, it is stable and not easy to fall during exercises.

On-the-Go Listening

Freego1 Air could perfectly fit the natural curve of your ear and avoid sport falling off. Light weight design , say good bye to ear fatigue.

16.2mm Dynamic Driver

Two powerful 16.2mm drivers combine to bring you 360° panoramic sound.

Open Ear, Safer To Drive And Sports

Hear ambient sounds at any time to avoid dangerous situations.

Bike Lovers Deserve Better

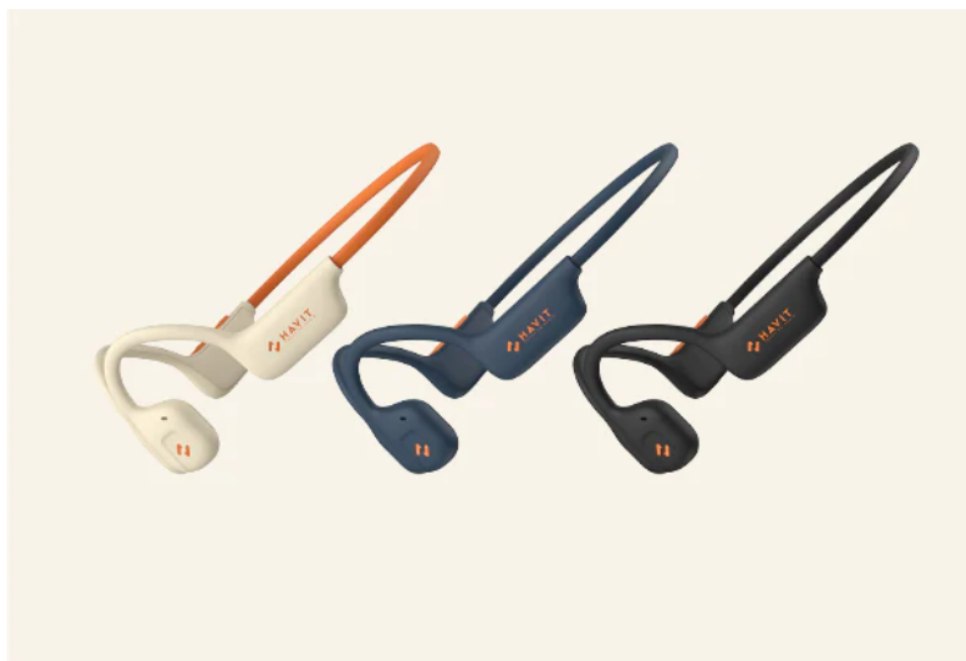

Enjoy music while cycling and avoid collisions with cars and pedestrians.

12 Hours Long Battery Life

Equipped with low power chip, with long battery life.
