Minimalist and Stylish

The projector's cylindrical body boasts smooth lines and a top cover adorned with decorative fabric, offering a minimalist and stylish design that harmoniously complements various home decor styles.

Brilliantly Colorful, Clearer Image

The projector boasts a brightness of 180 ANSI lumens, a high-definition resolution of 1280*720P, and a 1000:1 high contrast ratio, ensuring a clear and vibrant projection with brilliant colors.

200 inch Designed for Your Viewing Needs

Its 1.2:1 throw ratio makes it suitable for projecting in most rooms, living rooms or offices. Enjoy screen sizes between 45"-300" for all your movies, shows and video games.

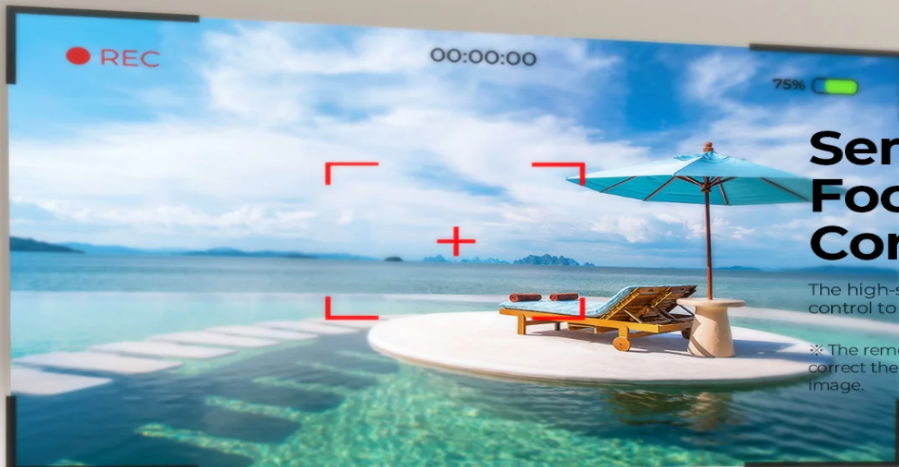

1.5-5m Projection Distance

Semi-Auto Focus & Keystone Correction

The high-sensitivity motor cooperates with the remote control to achieve fast and accurate focusing.

※ The remote control assists keystone correction to accurately correct the image. And the side projection can also correct the image.

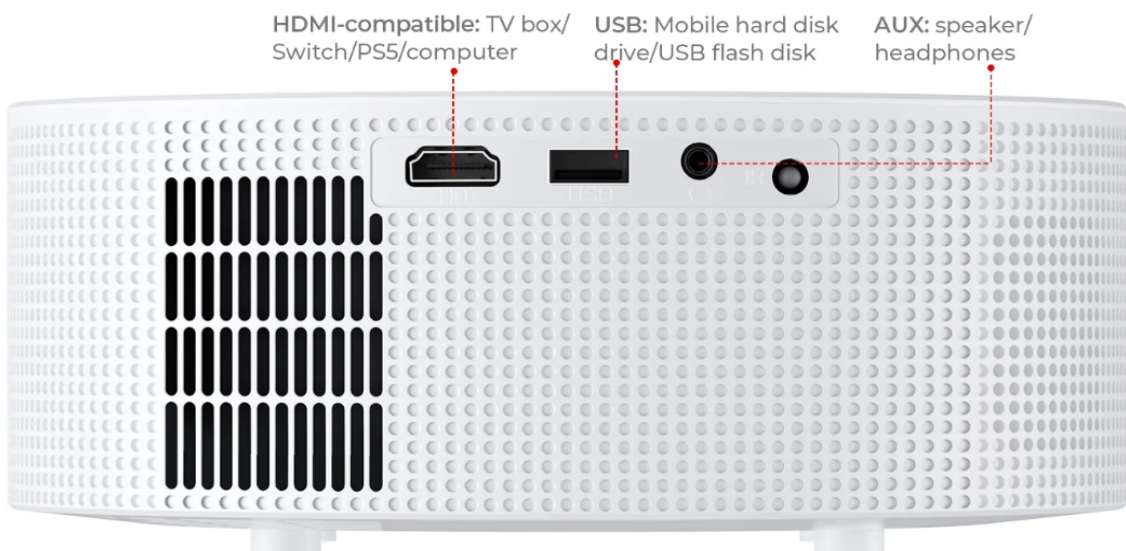

2.4GHz/5GHz Dual-Band WiFi Connection

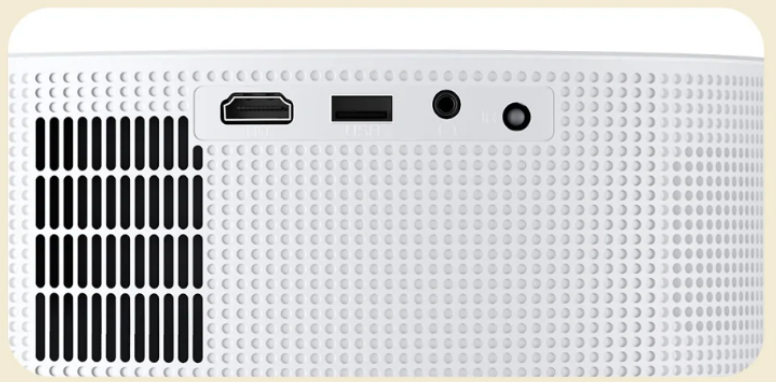

It switches 2.4GHz and 5GHz WiFi freely and 5G signal network transmission is stable and fast. Online video viewing is smoother.

Multimedia Interface

※ Multi Projector Mode: Tripod Mount, Ceiling Mount, Table Mount
